

# + amino = Huge Savings on Medical Care

## Exciting News, Teammates!

We're making it easier for you to save money and choose the best Blue Cross doctors with our new partner, Amino!

 What's Amino? It's a **FREE** tool that rates doctors and lets you know which ones are more affordable for you to use. All doctors with top grades "A" or "B" appear first in your search, and the ones with the best prices are right at the top!

Amino is super easy to use. In just a snap, you can find a top-rated doctor in under 30 seconds!

Plus, you can book appointments with a simple click! Isn't that cool? 

### But wait, there's more! You save a lot of money.

 We've added special "**Additional Benefits**" to our medical plan. When you search for a doctor or health care provider, you'll also see these added benefits that can **save you BIG bucks!**

 Here's how you can save with Amino and **Additional Benefits**:

- Enjoy **FREE** mental health therapy visits through the Additional Benefits, instead of paying under Blue Cross.
- Save hundreds of dollars on an MRI. Just look for **Green Imaging** listed in Additional Benefits when you search!
- Knock off \$3,000 or more from knee surgery costs. Check out **Surgery Plus** in your Additional Benefits!
- Use **MDLive** to see a doctor either for **FREE** or for a third the cost you pay for an in-person doctor visit with Blue Cross.
- And save on almost all other kinds of office visits. Yes, you read it right!

 Download the Amino app or use it in your web browser. Time to make your health plan work smarter for you, not harder!

**Get the care you need, choose the best doctors, and save money with Amino. That's a win-win-win!   **
